---

PROFILE

Full-stack web developer specialising in React.js, Django, and REST APIs. Skilled in designing responsive, intuitive UIs, developing scalable backend systems, and delivering fully documented, production-ready applications. Passionate about creating tools that simplify complex processes and improve access to services. Currently exploring opportunities to contribute to open-source projects and collaborate with other developers.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React.js, Python, Django, FastAPI
Databases & APIs: PostgreSQL, REST APIs, CRUD workflows
UI/UX & Design: Figma, Chakra UI, Wireframing, Prototyping
Practices: Git version control, Agile sprints, Code reviews

EXPERIENCE

Software Development Intern | Tunga *(Remote, Kampala)*
Aug 2024 – Jan 2025
- Designed admin interfaces in Figma and implemented responsive React.js components.
- Wrote technical documentation covering setup, architecture, and deployment processes.
- Collaborated in Agile sprints, using Git workflows for version control and code reviews.

Backend Microservices Trainee | Tunga Impact Academy *(Remote, Kampala)*
Feb 2024 – May 2024
- Built modular services using Django and FastAPI for demo projects.
- Participated in pair programming and team code reviews.
- Learned Docker basics for deployment and environment consistency.
- Soft skills: feedback for growth, assertiveness at work and conscious communication.

Junior Software Engineer | Refactory Academy / Agripoint *(Remote, Kampala)*
Sep 2022 – Aug 2023
- Designed warehouse tracking UIs in Figma and developed frontend in React.js.
- Introduced Git branching workflows for improved collaboration and reduced merge conflicts.

EDUCATION

MSc, Web Design & Development *(Ongoing)*, UNICAF / UK-accredited
LL.B., Bachelor of Laws, University of London

CERTIFICATIONS

- Backend Microservices with Python, Tunga Impact Academy
- Certificate in Software Engineering (JavaScript), Refactory Academy
- Meta / Andela Front-End Certificate (React)
